OVER THE YEARS

Commentaries based on cataloging over 300 sales and 50 years collecting - since 1928
(including the Largest A.N.A. sale ever held-1977)

The experience of conducting the James F. Lindsay "Church Collection" sale held at the G.E.N.A. convention September 29-30 in the Americana Hotel at New York City will be fondly recalled as one of the high-lights of my numismatic life. The exhilaration caused by the fast moving pace and record prices achieved was enhanced by the approbation of the representative of the church "for a job well done". This was indeed most satisfying as I have had a warm and close regard for "Jim" over the past three decades, and was pleased they were happy with the results.

The many hundreds of gold coins in the sale attracted such strong bids that only eight were not sold to floor bidders . . . an experience we cannot recall ever happening before in all our sales over the years. Many were finally knocked down at three, four or even five times "catalog", only after spirited, and occasionally "furious" bidding. The U.S. currency, particularly those in choice condition, as well as the rarities, so far exceeded "catalog" in many instances, that the new Friedberg catalog (just out) is already woefully behind the new record prices.

While the Early American coins (Colonials), Half Cents and Large Cents brought prices more in keeping with "Catalog" values, we note a strengthening of the market compared to levels prevailing a year ago. Some even sold at "bargain" prices. We feel copper coins are still undervalued and will follow the lead of gold and silver within the coming year or so.

Private and Territorial Gold coins, long one of our favorites, showed remarkable strength with some bringing several multiples of "Catalog".

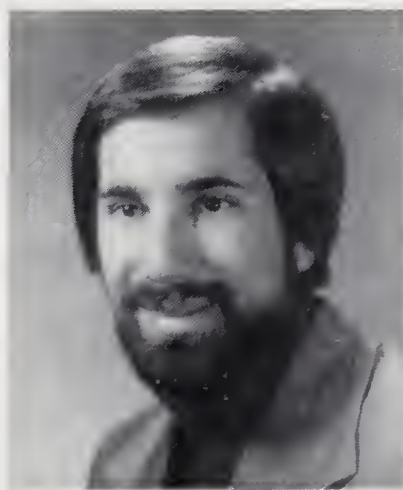

We feel the above trends will continue to prevail in this next sale, and that even some of the "record prices" achieved at GENA will appear to be "reasonable" by the time this sale is in the hands of the auctioneer.

The "GENA GROUP" (Caggiano, Loss, Gorlin, Storm, Brand, Ollis, Alones) and all others involved certainly know how to put on a convention. Things moved very smoothly. Your efforts were sincerely appreciated by all.

REGARDING ANA CERTIFICATION

KAGIN'S ARE PROVIDING COMPLETE AMERICAN NUMISMATIC ASSOCIATION CERTIFICATION OF YOUR RARE AND UNUSUAL COINS. We at Kagin's think that this certification service is essential in assuring the authenticity of the coins you purchase. This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE COINS FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST AN ANACS CERTIFICATE.** We are pleased to provide this service for our consignors at no extra charge.

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The professional staff at ANACS examines and when necessary, will conduct non-destructive tests on numismatic material submitted for certification. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS opinion concerning the authenticity of the coin.

All coins that are determined to be genuine, and the great majority of them are, are then issued a certificate of registration. This certificate records an identifying code number, a statement of authenticity and documented photographs.

Kagin's is the only auction company that offers this ANACS for all the major coins featured in our auctions. This is a valuable benefit that Kagin's is able to offer you. It protects the collector and the consignor. You will be able to take advantage of this essential service when you consign your coins to a Kagin's auction.

GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

POOR-1: Barely recognizable as to type.

FAIR-2: Showing minor detail.

AG-3: About Good-3, Rims worn down into lettering but interior detail will be visible.

GOOD-4,6: All interior outlines visible.

VG-8,10: Very Good 8 and 10, About 25 percent of the interior detail will be visible, date barely readable.

FINE-12,15: 30 percent to 50 percent of the interior detail will show.

VF-20,25,30,35: Very Fine 20 thru 35, 60 percent to 85 percent of the interior detail will show. 35 (Borderline EF).

EF-40,45: Extremely Fine 40 and 45, 90 percent of all interior details will show.

AU-50,55: Almost Uncirculated 50 and 55, Bare traces of friction at the highest points. 55 + (Borderline Unc).

UNC-60: Mint State (MS) 60, strictly Uncirculated with no rub or friction, i.e. NO WEAR.

CHOICE BU-60 + : Mint State (MS) 60 + , a Choice Uncirculated specimen nicely struck and with nice luster.

GEM BU-65: Mint State (MS) 65, a Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions.

Superb GEM BU-65 + : Mint State-65 + , if you look real hard with strong magnification you might find a flaw.

Perfect GEM-70: Mint State-70: Once in a great while a perfect coin is sold.

PROOFS & SPECIMENS: Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-60 + , GEM Proof-65, SUPERB GEM Proof 65 + .

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 - or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have checked one of the increase boxes, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF THE SALE.

CHOICE 1797 SMALL EAGLE DIME

225. 1797 16 STARS, SMALL EAGLE, **Borderline UNC-55**, nice strike with only slight friction high points, much luster. **RARE**. Cat. \$7,000 for UNC-60; this worth about 5,000.

DRAPED BUST, HERALDIC EAGLE DIMES

226. 1801 **About UNC-50**, Sharp Struck, grayish luster. **RARE**. Bought as "CONDITION-CENSUS"! We believe the \$4,250 cat. value for unc. to be "theoretical" as we do not recall ever seeing a strictly unc. specimen. This remarkable specimen was bought at \$2,500, which we now consider quite "reasonable" for a top-condition specimen of this date.

227. 1804 13 STARS REV., bust and LIBERTY Sharp **Very Good** bordering on **Fine**, stars good with a few very good, bottom of date and rim weak, lt. marks at edge; rev. center **Very Good** but outer edges of UNITED AMERICA weak. **ONLY 8,265 struck!** **RARE IN ANY CONDITION**. Easily worth over 700.

1797 SMALL EAGLE "1/2" DOLLAR

391. 1797 O-101a, Rarity 6, **Choice Very Fine-35**, Sharply struck in every detail. From the 1975 ANA sale, Lot 466, described as follows:

"VF-30 to 35, but easily a commercial "EF". Quite clean and the hair detail is exceptionally well struck with full detail. Much evidence of original luster. One tiny noticeable nick just barely into two denticles at the first star is a result of the edge lettering process done at the mint. Stars flat as usual; otherwise, sharp in every respect. A super type or date collector's coin and the best one we have handled in years."

Certainly one of the highlights of this sale and should produce quite an abundance of interest, well into five figures. 10+

DRAPED BUST, HERALDIC EAGLE HALF DOLLARS

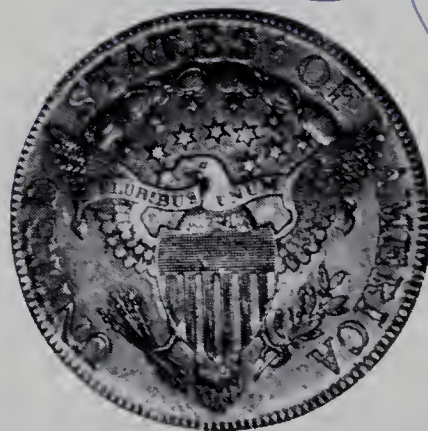

392. 1805 OVER 4, 0-101, Sharp Extremely Fine bordering the About UNC. for which acquired. We do not recall seeing a strictly unc., therefore this is either "Condition-Census", or close to it! Scott states "Unverified in unc". The cat. of \$3,750 for unc. is therefore theoretical. Easily worth over 1,500.

393. 1805 0-109, 4 berries, About UNC. with traces of luster, usual softness in strike at back hair strands and top stars rev. Scott states "Extremely rare in unc." 1,250.
394. 1805 0-112 Choice Very Fine-30. Nice clean surfaces except lt. bagmark on neck. Bought as XF at 375.
395. 1806 0-109 Very Fine-30, Pointed 6, No Stem through claw. Cat. 175.

396. 1806 UNLISTED! Pointed 6, Obv. 10 of 1806, unlisted rev., **CHOICE EXTREMELY FINE-45**, some original luster still present. Somewhat weak struck as all of this variety. Cat. 400. reg; this worth? *PLATE*

397. 1807 Bust Right, 0-105, Superb borderline Uncirculated-55+, lovely blue and sea-green luster, nice strike with full edge dentilations both sides! While some of the hair strands are not fully struck up, they are sharper than most seen over the years. Only a faint rub spot on eagle's head (high point of coin) restrains our use of further desirable adjectives. Lovely surfaces. Naturally acquired as "GEM UNC." several years ago @ \$3,500; presents trends is \$4,250 for average unc. ("60").

1060. 1852-C **Choice About Uncirculated-50**, Attractive yellow color, usual weak hair and star detail (as struck). Prooflike surfaces show through to make this coin even more attractive. Only 9,434 struck. 750. *PLATE*
1061. 1852-D **Extremely Fine-40**, Not as sharp as some, lt. marks with heavy die clash markings. Only 6,360 struck. Cat. 550. *PLATE*
1062. 1852-D **Sharp VF-30/EF-40**, rotated rev. Only 6,360 struck! Rare and seldom available. Cat. EF 550.
1063. 1852-0 **VF-25/EF-40**, Weak hair (usual), traces luster.
1064. 1853 **Choice Brilliant Uncirculated-60 +**, Bright yellow gold surfaces, lt. hairlines. Cat. 400.
1065. 1853 **Extremely Fine-40**, Good color, strike normal, lt. marks. Cat. 175.
1066. 1853 **Ext. Fine-40**, but slightly bent.
1067. 1853 **EF-40** but solder removal spot rev; 56 **VF** polished but lg. rough spot rev.
1068. 1853-C **Choice EXTREMELY FINE-45**, Strong details both sides, traces luster, 11,515 struck. Cat. 500.
1069. 1853-D **EXTREMELY FINE-40** Some weakness, much luster. Only 6,583 struck! Cat. low at only 500. *PLATE*
1070. 1853-0 **Very Fine-30**, weak in hair detail. Cat. 145.

1071. 1854-D **Choice About Uncirculated-55**, Some prooflike fields from heavy die polishing at the mint. (More pronounced on obv. from chin to neck.) Extremely sharp in all details, lightly cleaned. Only 2,935 struck! Ex: Stacks 9/23/61, Lot 163. Cat. **UNC.** \$3,500; this worth?
1072. 1854-S **Choice Extremely Fine-45**, Almost fully struck up, much luster. Only 14,632 struck. Should exceed cat. of 475.
1073. 1854 **TYPE 2, EXTREMELY FINE-45**, Sharper strike (Full Date) than 80% seen of this date! Cat. 500.

1074. 1854 **Type 2, Choice EF-45**, Better strike than usual, lt. marks, slightly bent, tiny nick in field.

1075. 1855 **Brilliant Uncirculated-60**, Bright yellow gold color, characteristic die clashes. Superior to most "Uncirculated" specimens offered. Popular for "TYPE". Cat. 1,900.

210 1076. 1855 Sharpness of about **EF** but scratches on rev.

50 1077. 1855-C **Strong VF-30/EF-45**, Golden yellow surfaces with characteristic die clashing and weakness exhibited, some lt. marks also noted. Stronger date than usually seen for this rare issue. Only 9,803 struck! Should come close to **EF** cat. listing of 1,450. *PLATE*

475 1078. 1855-C **VERY FINE-25/35**, Usual weak struck obv, clash marks on obv. Only type 2 "C" dollar. Scarce! Only 9,803 struck. Ex: Stanley Elrod Coll. Cat. 625. *PLATE*

1079. 1855-D **SHARP ABOUT UNCIRCULATED-50+ /55**, Attractive deep golden yellow color. Extremely sharp in headdress; only "8" in date weak, (as usual) But sharp over all reverse surface. Strong "clashing" exists on both surfaces showing "Liberty" by the 1st "5" in date. Some die breaking noted by mint mark, explaining why only a mere 1,811 were struck. This die obviously did not last long. From Stacks 6/16/61 sale, described as follows:

"One of the rarest Dahlonega mint gold dollars. The mint mark is very bold. A specimen of this quality has not been offered at public auction for almost a decade. This is within the top half dozen best specimens."

Cat. **EF** \$4,000 & **UNC** \$12,500; this remarkable specimen worth?

525 1080. 1855-O **EXTREMELY FINE-40**, traces luster, some weakness as all "O" mints, lt. marks in fields. Still very scarce and hard to find in top condition. Cat. 1,000. *PLATE*

170 1081. 1856 **TYPE 3**, Slanting 5, **EXTREMELY FINE-40**, cleaned.

165 1082. 1856 **VERY FINE-30**, Slanting 5, Deep golden yellow, lt. marks.

525 1083. 1856 Slanting 5, **GEM BRILLIANT UNCIRCULATED-65**, Gorgeous yellow gold color, very sharp hair detail and devices except for "I" in **AMERICA**. Evidence of die polishing marks up and down creating a somewhat semi-prooflike field. Exquisite and very attractive! *PLATE*

100 1084. 1857 **EF-40**, Deep yellow gold color, planchet defect obv. obliterating "T" in **STATES** and most hair detail.

500 1085. 1857-C **CHOICE EXTREMELY FINE-45**, Struck very sharp except for "8" in Date, traces luster. Superior strike to most seen. Scarce! Cat. 550. *PLATE*

1086. 1857-D **About Uncirculated-50**, Attractive bright yellow gold color. Beautiful surfaces and well struck for this "D" mint. Only slight weakness on rim on rev., some lt. marks. Only 3,533 struck! 1,500.

325 1087. 1857-S **EXTREMELY FINE-40**, some prooflike tendencies showing through devices, Sharp detail; Lt. marks, as usual. Only 10,000 struck. Cat. 375.

- 850
1088. 1858 **GEM BU-65**, Sharp Struck with Prooflike Surfaces, High Wire Edge Both Sides. **LOVELY SUPERB SURFACES!** Only the tiny mark between S OF prevents an even higher grade. Must be seen to be appreciated. Akers states, "truly choice pieces are more difficult to obtain that one might imagine", "only a fraction of that offered for many other more highly regarded dates". "Common date" Type III in comparable condition now bring over \$1,000; surely this elusive date worth somewhat more.

- 1400/1475
1089. 1858-D **CHOICE ABOUT UNCIRCULATED-55**, Golden coppery yellow color. Somewhat weak, as is typical for "D" mints, showing less detail in headdress, "5" in date, and beading around border. Lt. hairlines but attractive. **Only 3,477 struck!** Cat. **EF \$1,150 & UNC \$3,000**; this worth?

- 150
1090. 1858-S Sharpness of **About UNC** but lt. scratches on face & lt. hairlines noted, much luster, 10,000 struck. Cat. **EF 400**.

- 550
1091. 1859-C **About Uncirculated-50**, Bright yellow color and surfaces, Sharper in center than near borders (as usual). Struck with slightly concave surface as most are. Faint marks and one very small planchet defect at "1" over "L" in **DOLLAR**. Only 5,235 struck! Seldom seen this nice! Cat **EF \$600 & UNC \$1,500**; this worth? **PLATE**

- 725
1092. 1859-D **EXTREMELY FINE-40**, Pale golden yellow color, typical weakness at headdress, "IC" in **AMERICA**, "OL" in **DOLLAR**, and "5" of date. Also ribbon bow and knot weak. Most all of this date show these "problems". Since only 4,952 were struck, it is assumed that these coins were produced quickly to serve the need of gold. Seldom offered any nicer than this present specimen. Cat. 900.

- 375
1093. 1859-S **ABOUT UNCIRCULATED-50**, Attractive golden yellow, sharp detail and devices, lt. scratch near mintmark, 15,000 struck. 600, **PLATE**

- 375
1094. 1860-S **CHOICE EXTREMELY FINE-40**, Bright coppery color, sharp strike. Lt. marks, 13,000 struck. Cat. 375.

- 950/1050 OK
1095. 1861-D **EXTREMELY FINE-40**, Rich Coppery golden yellow color is exhibited throughout. Sharp struck legend headdress, date, mintmark and devices. Only the borders of this specimen show weakness, which is found on all other specimens. Lt. hairlines noted on a somewhat prooflike surface. All of these specimens, which only about 13 are known to exist today in **any** condition, were struck by the Confederate States of America. Very seldom does a specimen show up at auction. The opportunity is here now to purchase this rarity. In our opinion, the catalog should be put aside when bidding on such a rarity! Cat. 9,000.

- 970
1096. 1862 **CHOICE ABOUT UNCIRCULATED-55**, Light golden luster. Sharp with lt. rubbing.

1097. 1864 **CHOICE BRILLIANT UNCIRCULATED-60+**, Superb golden yellow color, sharp in all areas except center. Only 5,950 struck. Most of these Civil War year coins were melted, leaving little for the numismatist of today to acquire. Should surpass cat. listing of 1,300.

1098. 1865 **CHOICE ABOUT UNCIRCULATED-55**, Attractive deep golden color. Sharp detail including date. Lt. rubbing in fields with some lt. marks. Only 3,725 struck! Scarce and seldom obtainable in any condition. Should realize close to cat. for **UNC** of 1,800.

1099. 1867 **CHOICE ABOUT UNCIRCULATED-55**, Deep golden yellow surfaces, somewhat prooflike. Sharp detail in hair. Heavy clash marks on surfaces to an extent of "LIBERTY" shows through reverse under date! Exceedingly attractive coin. Only 5,250 struck! Cat. **EF** \$400 & **UNC** \$1,200; this worth? **PLATE**

1100. 1868 **ABOUT UNCIRCULATED-55**, Some lt. hairlines present through prooflike fields. Cat. \$375 **EF** & \$1,000 **UNC**; this worth? **PLATE**

1101. 1870 **Choice ABOUT UNCIRCULATED-55**, Deep golden yellow surfaces, Somewhat prooflike, Sharp detail. Only lt. rubbing on high spots. Only 6,335 struck! Cat. **EF** \$375 & **UNC** \$975; this worth?

1102. 1870-S **Choice BRILLIANT UNCIRCULATED-60+**, Pale yellowish golden color, very sharp overall, attractive satin luster but with some lt. hairlines. Lovely for this rare date! A premium specimen. Cat. 3,000.

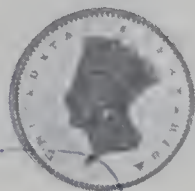

1103. 1871 **Brilliant Uncirculated-60**, Sharp detail. Some lt. hairlines in fields, lt. mark on neck. Only 3,930 struck! Cat. 950. **PLATE**

1104. 1872 **About UNC-50**, Prooflike surfaces, Sharp detail. Only 3,530 struck! Cat. **EF** \$385 & **UNC** \$1,100; this worth? **PLATE**

1105. 1875 **Choice Borderline UNCIRCULATED-55 +**, Fully prooflike, deep mirror fields (acquired as "PROOF"). Some lt. hairlines noted. Although this coin is extremely sharp in all details, it lacks certain characteristics of being a full "PROOF". All 1875 PROOF \$1's (B-1) do not have a spine extending from chin. All B-2 1875 PROOF \$1's have spines from chin but the numeral 5 is lined up with the rt. foot of "A" in DOLLAR. This highly desirable coin, one of only 400 struck, should attract tremendous response as these are seldom available. The catalog value of \$8,000 for UNC seems conservative for fully prooflike specimens (which in years past have been sold as Proofs). The rarest "P" MINT DOLLAR!

- 3500
1106. 1876 **Choice Brilliant Uncirculated-60 +**, Almost full prooflike fields with some lt. hairlines from early mishandling (bought as "PROOF"). Sharp detail except for bow of ribbon where there are faint adjustment marks from the planchet being overweight. Very choice! Only 3,245 struck! Cat. 900. *PLATE*

- 3100
1107. 1877 **Choice Brilliant Uncirculated-60 +**, Almost full prooflike fields with some lt. hairlines (bought as "PROOF"). Unusually nice for this date. Reverse is exceptionally sharp. Only 3,920 struck! Cat. 1,000. *PLATE*

- 330
1108. 1878 **About UNC-50**, slight rubbing, prooflike tendencies, sharp strike with pronounced date. Only 3,020 struck! Cat. EF \$375 & UNC \$1,000; this worth? *PLATE*

- 325
1109. 1879 **About UNC-50**, Prooflike tendencies noted. "LIBERTY" on headband partially missing from die polishing at mint, lt. marks on surface. Only 3,000 struck! Cat. EF \$375 & UNC \$900; this worth? *PLATE*

1110. 1881 **GEM BRILLIANT UNCIRCULATED-65 +**, Superb frosty cameo-like devices, prooflike fields. As immaculate as any Type 3 Gold Dollar could be! Full deep golden yellow color. Should attract considerable interest from the one who wants "THE BEST"!

- 1750
1111. 1881 **GEM BRILLIANT UNCIRCULATED-65**, Exquisite frosty-golden yellow surfaces. Cameo-sharp Strike, Prooflike tendencies. Only a couple faint hairlines from MS-70! 7,707 struck! Should well exceed cat. listing of 575. *PLATE*

**1848 CAL. QUARTER EAGLE(2½ Gold) "MINT STATE"
COMMEMORATING THE DISCOVERY OF GOLD IN CALIFORNIA**

XF NH

- ✓ 1146. 1848 CAL. above eagle with distinguishing square period after CAL as on all genuine specimens. Sharp Strike with **BROAD SQUARE EDGES AS ON PROOFS**, yellow gold color, lovely smooth surfaces with Prooflike tendencies, lt. mark from back of hair to edge below ninth star and faint identifying mark at edge below final 8 in date. The Guidebook states:

A number of collectors rate this historical coin as "The most popular and desirable U.S. gold coin." It is in strong demand by U.S. gold collectors, Private and Territorial gold collectors as the "First Gold Coin Struck From California Gold", commemorative collectors (struck to commemorate the discovery of gold in California), and by "Californiana" collectors (historians, museums and collectors of memorabilia of California).

Struck from the regular dies with CAL. punched above eagle while the coin was still in the dies. In 1848 some gold was sent to Secretary of War Marcy by Col. R.B. Mason, Military Governor of California. The gold was turned over to the mint and made into quarter eagles.

We note the specimen in the Bareford (which he purchased in our 12/31/51 sale) sale (12/1/78) fetched \$27,000, which a dealer paid after spirited bidding.

PERSONALIZED INVESTMENT SERVICE

Many auction bidders ask us for advice on how to invest in rare coins. Collectors who are building specific collections often ask which dates to buy first, or which condition of coin is best for them to obtain, etc. Other bidders ask us simply for the "best opportunities for investment."

In response to these requests, we have developed the Kagin Numismatic Investment Program — a program which differs from all others.

You receive the personal attention and service of A.M. (Art) and Don Kagin who work with you to develop an individually-designed program that will meet your specific needs.

A.M. Kagin is a professional numismatist who has been active in numismatics for more than 50 years.

Don Kagin is the recipient of the first Ph.D. conferred in numismatics.

We will personally service your account, making suggestions for acquisitions and making sure your collection meets your individual needs.

Kagin's is particularly noted for:

U.S. currency—We edit and publish the **Donlon Catalog of Large Size U.S. Currency 1861 to 1923**. (New 1979 edition just published). Our currency Investment Program includes only **Choice** and **Superb** Notes selected from the **Largest Inventory of U.S. Currency available**.

Pioneer and Territorial Gold—Don Kagin is currently writing the book that will be the new guide for Pioneer and Territorial Gold. When the book is published, rarity ratings will be drastically changed on a number of coins, and there will be fewer "bargains". Avail yourself of this service **NOW** before prices advance further.

Whether you wish to collect specific coins or to make general investments, our Investment Program offers you the following additional services:

- Inclusion in Keogh Retirement Plans and Individual Retirement Accounts.
- Pension Funds.
- Numismatic Tax Counseling.
- Personal Consultations.
- Personalized programs designed to fit your individual needs.

- *When you are sick* — CONSULT A DOCTOR

KAGIN'S PRIVATE & TERRITORIAL INVESTMENT PROGRAM

A UNIQUE program under the *personal* supervision of Don Kagin and A.M. Kagin. This program must be limited to only a few. Not many coins now exist, and availability is sporadic. Don's intensive research (which will ultimately be incorporated and published in book form) will alter the rarity and values of a number of pieces. Until this book is published, some "bargains" can still be obtained. BUT ----- in order to take advantage of these "bargains," you must be a member of this investment program. Time is of the essence in this area, as unlike other fields, only a single specimen may become available before the book is published. Much new and surprising information has been uncovered in this intriguing field. Those availing themselves of this program will receive something educational (often something unpublished) with every purchase.

Yes, I am interested in your **PRIVATE & TERRITORIAL GOLD Investment Plan**. Please send me (without obligation) more information.

IN ORDER TO SELL, WE MUST BUY

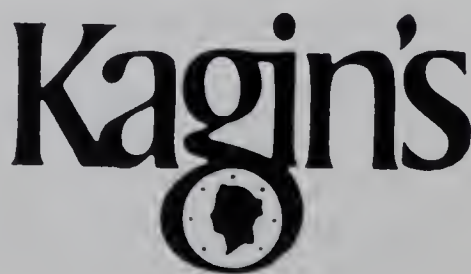

Our specialized knowledge (Don Kagin), nearly HALF A CENTURY as collector and Professional Numismatist (A.M. Kagin) enables us to KNOW the rarity and values of the DIE VARIETIES as well as the Major Varieties. Whether we are contacted directly by the owner, his agent or even a representative of the agent, we are interested in buying. We purchased the CLIFFORD PRIVATE & TERRITORIAL GOLD COLLECTION ----- THE LARGEST AND FINEST IN EXISTENCE at the 1974 A.N.A. convention ----- after it had passed through several dealers' possession. It was THE LARGEST PURCHASE FOR A *Single Specialized Collection* IN AMERICAN NUMISMATICS! Whether you have a \$500 coin for sale or a FIVE MILLION DOLLAR COLLECTION, we are prepared to PAY A TOP PRICE. As a "dealer's dealer," we do not discriminate — we buy from dealers as well as collectors.

IT MAKES SENSE

If you have a legal problem — go to a lawyer

If you have a health problem — go to a doctor

If you have a "Private & Territorial Gold Coin, Bar, etc. — go to a specialist
